

The Screw

Read the text. Then write main points in the spaces on the right.

TEXT	MAIN POINTS
<p>The screw was invented over 2000 years ago. It was first described by the ancient Greek scientist, Archimedes. The screw was a very large spiral device that was used to lift water from a well and irrigate fields.</p>	<ul style="list-style-type: none">• Screw invented over 200 years ago• _____• _____
<p>It was not until the Middle Ages that the screw was put to another purpose. In the 1600's carpenters used to use wooden pegs and straight nails in furniture. Then the nails were made with a twist for greater strength. They were beaten into place with a hammer.</p>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>
<p>The first screwdriver was used in London, England, in 1780. Now both screws and screwdrivers are commonly used.</p>	<hr/> <hr/> <hr/> <hr/> <hr/>
